## GLICK HIP SET

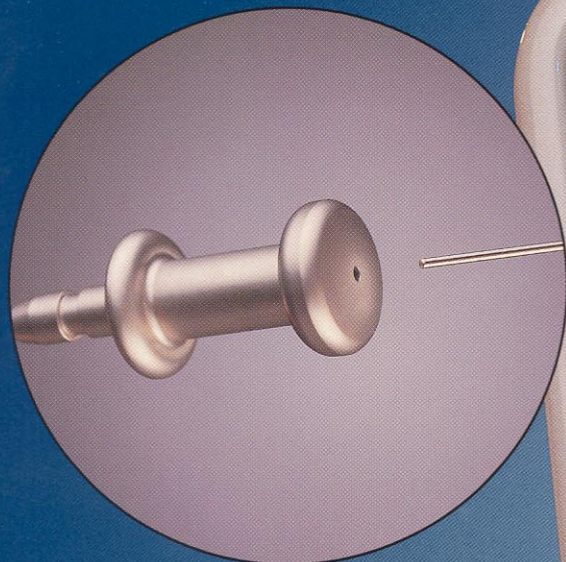

The Ultimate Kit in Hip Arthroscopy

GLICK HIP  
ARTHROSCOPY SET

**stryker**<sup>®</sup>  
ENDOSCOPY

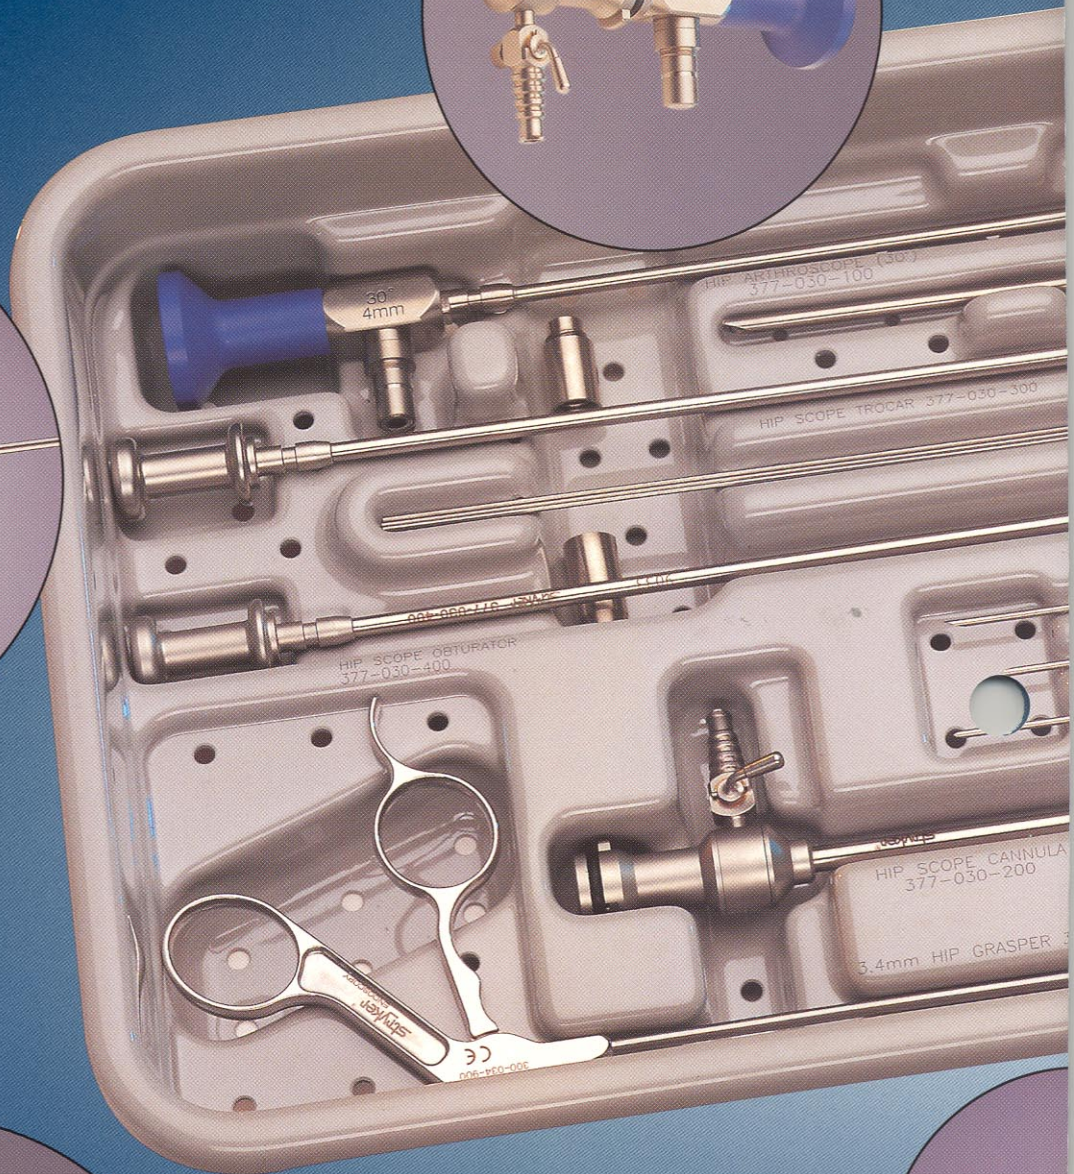

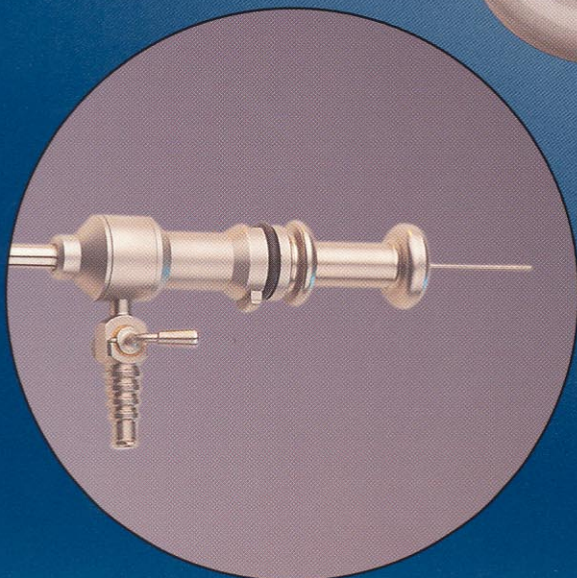

30° and 70° dedicated hip scopes

Cannulated hardware

Longer flexible guide wire

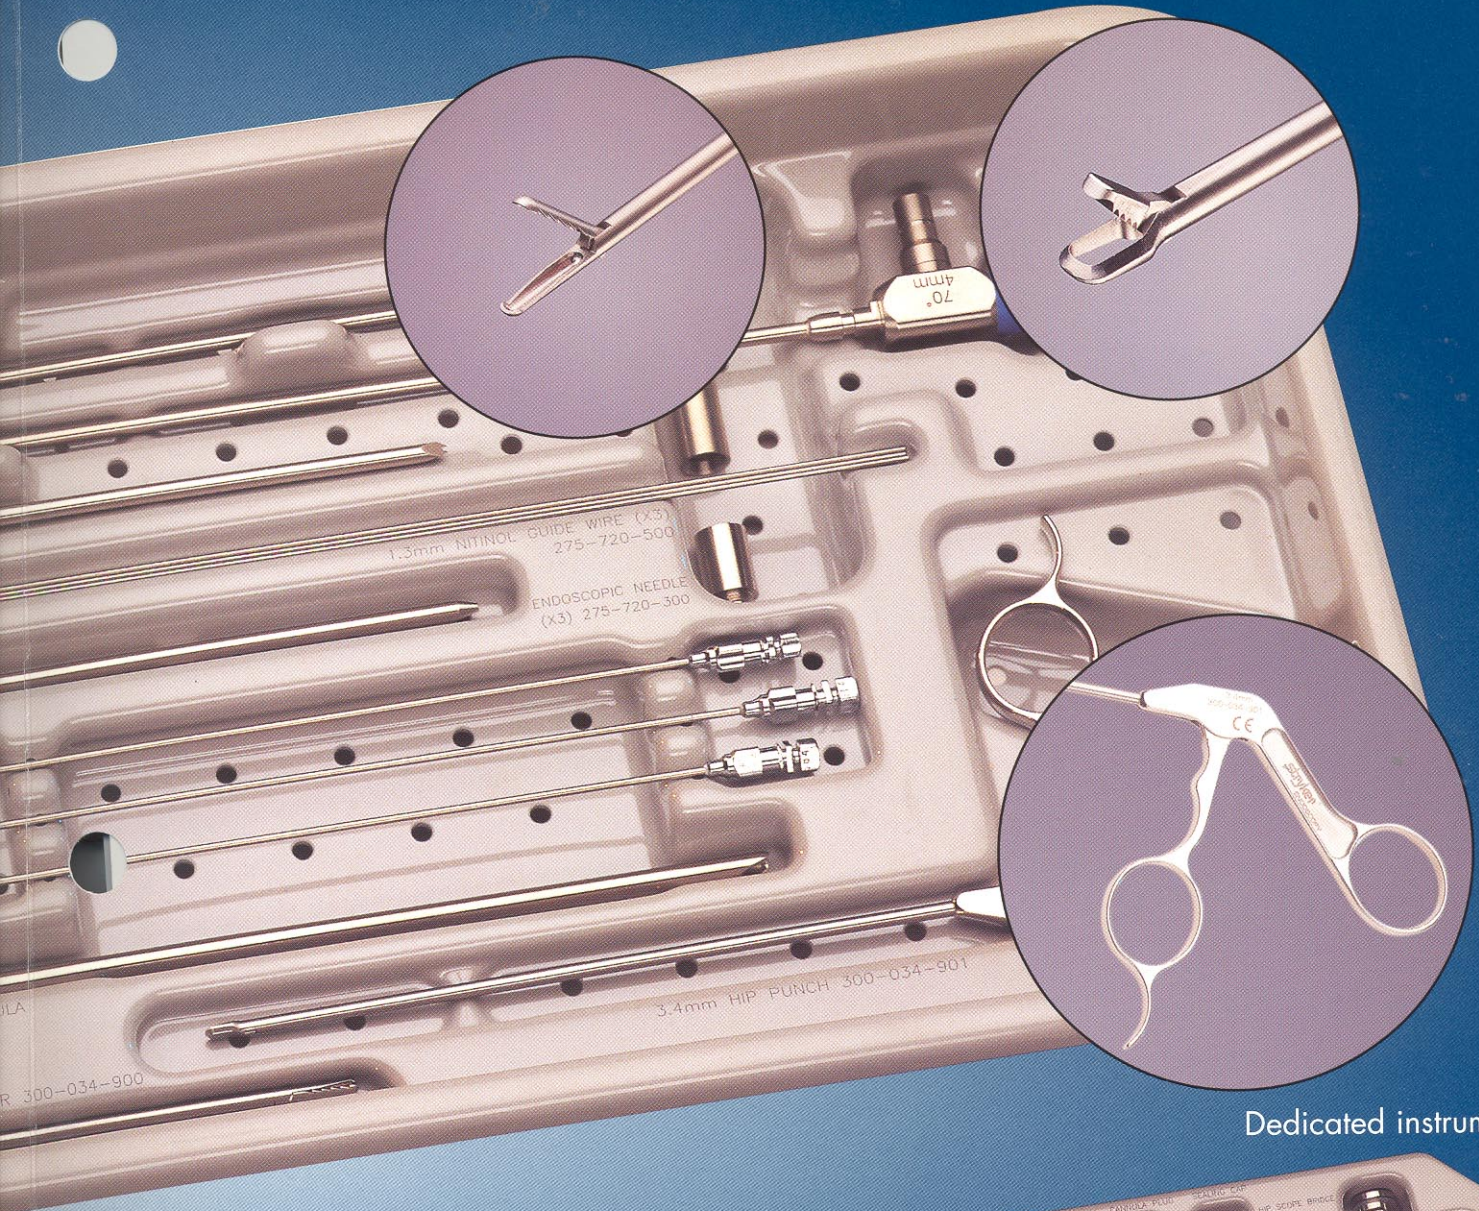

The Glick Hip Set is a surgical instrumentation kit that allows the surgeon to enter the Hip joint without dislocation.

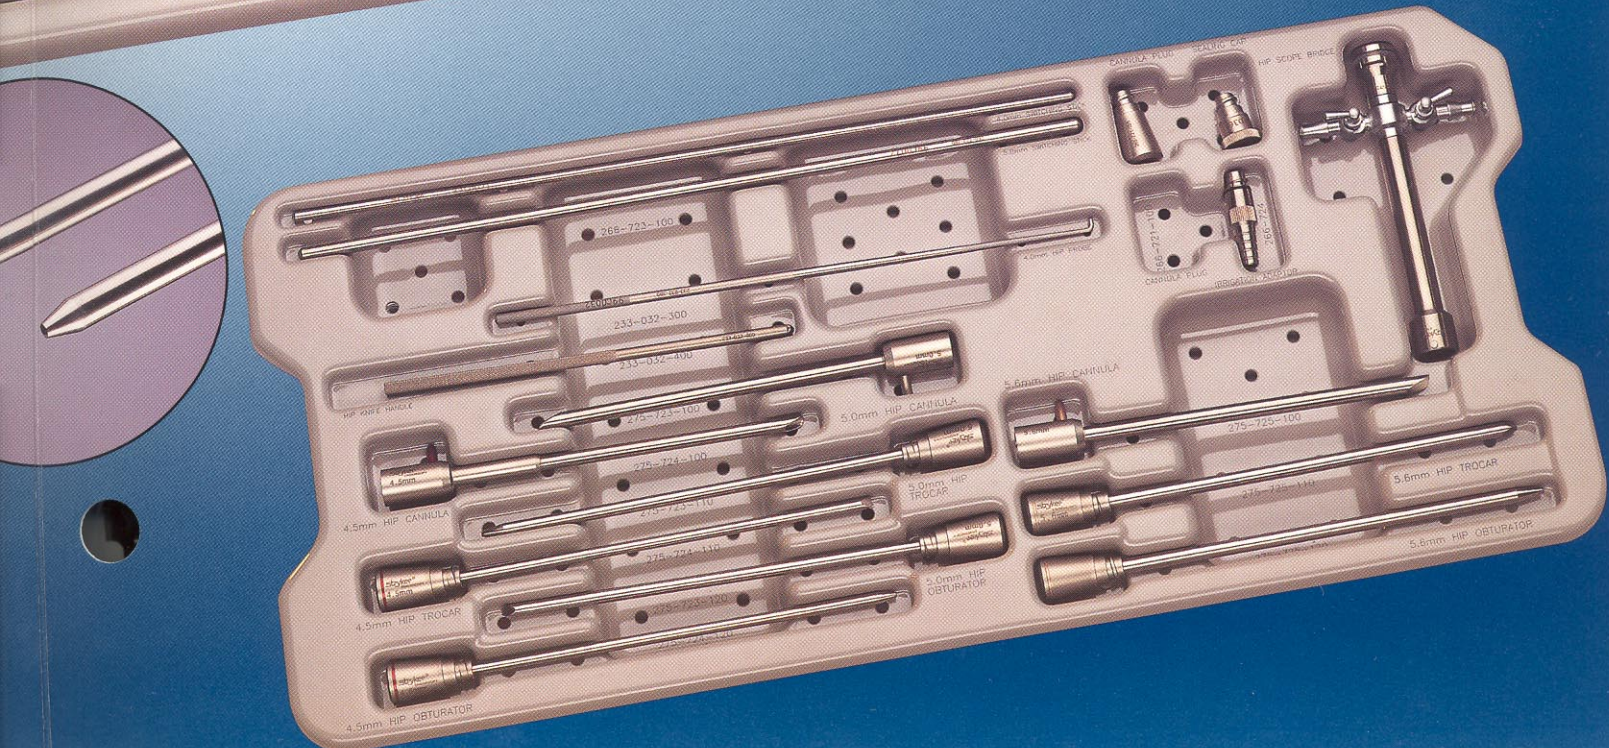

The Kit has significantly simplified the procedure, has cut down on the operative time and has helped prevent joint and surface damage. This has enhanced the overall safety to the patient.
