Seeing surgery through new eyes...

IDEAL EYES

The Way Surgery Was Meant to be Seen

Stryker is one of the visualization leader in high definition imaging with improved detail recognition, resolution, and excellent durability.

Designed to enhance picture quality, IDEAL EYES scopes are designed to:

- Enhance picture quality
- Enhance resolution
- Enhance colour reproduction
- Complement Stryker's latest camera technology
- Compatible with other camera system

Take A Better Look

IDEAL EYES scopes have an excellent optical performance because:

- 1) Adjusted optical calculations
- 2) High quality glass
- 3) US Patented lens design

Set Your Sights High

Stryker IDEAL EYES scopes combine high quality sapphires and laser welded leakage paths to ensure durability that will withstand repeated autoclave cycles over time.

Stryker's latest HD endoscope generation includes:

- Laparoscopic 2.9mm, 5.0mm, 10mm, 5.0mm Bariatric and 10mm Bariatric
- Arthroscopes 1.9mm, 2.3mm, 2.7mm and 4mm
- Cystoscopes 4mm
- Hysteroscopes 2.9mm and 4mm

The information presented in this brochure is intended to demonstrate a Stryker product. Always refer to the package insert, product label, and/or user instructions before using any Stryker product. Products may not be available in all markets. Product availability is subject to the regulatory or medical practices that govern individual markets. Please contact your Stryker representative if you have questions about the availability of Stryker products in your area.
